

PETIT FRUIT

100%
NATURAL
INGREDIENTS

Superior performance for your product.
Sensorial delight to your customers.

Petit Fruit: The ideal source of authentic fruit to your product

Petit Fruits are 100% natural fruit cubes, bits and powders to be used in a wide range of applications.

Petit Fruits are clean label, highly versatile and resistant to different production processes, and deliver superior flavor, color and texture to your recipe.

Up to 100% fruit

No added sugar, artificial sweeteners or preservatives

Clean label

100% natural

18 months shelf life

Non-GMO

Practical, versatile and resistant to the production process

Petit Fruit is a premium product line from Polpa Brasil, a leading supplier of dehydrated fruits and vegetables to the food industry in Brazil.

We provide high-quality ingredients to local industries and global players, adding value to their manufacturing process and brand. We partner with our clients' R&D teams to create highly sensorial and top-selling products.

Our fruits and vegetables are produced in a modern manufacturing plant, with superior technology, lean processes and strict quality control.

Our Petit Fruits

Cubes and Bits

Cubes and Bits

Provided in different sizes and shapes, Petit Fruit cubes and bits are 100% natural and up to 100% fruit. Adding texture, authentic flavor and color to the recipe, the fruit is visible in the final product, making it much more appetizing.

Without added gums, lecithin or pectin, they are highly resistant to several processes, such as beating, kneading, proofing, baking, frying or freezing. Our cubes and bits are stable in the final product and present low water activity: no color migration or staining, shape and size stay unchanged.

Cubes and bits are versatile and work well with chocolate, biscuits, power balls, trail mixes, cereal and nut bars, bakery products, candies – or even to eat alone.

 *100% natural*

 *Visible in the final product*

 *Highly resistant*

 *Up to 100% fruit*

 *Stable in the final product*

 *Low water activity*

Powders

Powders

Petit Fruit powders are 100% fruit. They are made with a proprietary production process which maintains the original attributes of the fruit while adding fresh flavor and vibrant color to your product.

Our powders are offered in different granulometry, and are easily added to bakery and dairy products, chocolate bars, shakes, food supplementation and many other recipes.

 *100% fruit*

 *Maintains the original attributes of the fruit*

 *Adds fresh flavor and vibrant color*

Summary of Applications

x	x	✓		Gummies	x	Inclusion	
✓	✓	✓		Desserts	Inclusion and topping	Inclusion and topping	Heating, blending (Stable in little to no water content. Stable in fat.)

Polpa Brasil

Polpa Brasil

Founded in 1999, Polpa Brasil is based in Fraiburgo, Southern Brazil, also known as "Apple Land". Its location is strategic to the sourcing of high-quality fresh fruits and vegetables, and to a differentiated supply chain.

With over 20 years of experience, we are still a familiar enterprise, holding to our founders' mission of bringing authentic, healthy, natural fruits and vegetables to people's lives.

In our 11,500m² industrial structure, we dehydrate more than 22,000 tons of fruits and vegetables per year, in a variety of shapes and formats.

With an innovative and creative team, we work closely with our clients' R&D to develop differentiated products to their market needs.
